

Registration & Rules Form

Find Your Legacy, Inc.

Name:

Company:

Profession:

Rules

- You are not to give or ask for personal information to students. This includes phone numbers, emails, or social media blades.
 - You are not to meet students anywhere other than what is coordinated by Find Your Legacy, Inc.
 - You are not to participate in any illegal activities with or for students.
 - Your participation in the program is contingent upon passing a federal background check.
-

Safety Information

This information will be accessible through our website under “Code of Conduct.”

There is a “Report” section on our website where you can review this information and Report Misconduct.

Misconduct

- No one in our program should be sending or receiving obscene material.
- No one should request or send photos.
- No one should request or send personal information to include last names of students, location, emails, phone numbers, or social blades (Twitter, Instagram, FaceBook, SnapChat, etc.).
- Username on our website should be FirstNameMajor. For example: RebeccaAccounting
- No hurtful or derogatory language shall be used to embarrass or bully another person.
- No one should create a fake profile to contact you.
- You are only to communicate with your assigned students.
- If any of the above is experienced, **Do Not Respond, Report.** Keep all records of contact for investigative purposes and report on our website under the “Report” tab. Your safety in our program is our top priority.
- We monitor all conversations on our website. Members are the only ones able to view and engage in discussions. We approve website members.

Passwords

- Create a strong password when registering as a member for our website. This includes at least ten characters with symbols,

upper and lowercase in a random order. Your password should not include personal information or words. An example is:

#eV\$plg&qf

- A strong password can prevent someone from stealing your password.

Wi-Fi Hotspot

- Be cautious of selecting “Free Wifi” or “Public Wifi” names because of cyber criminals.
- Disable automatic connections to Wifi in your settings.
- Disable File/Printer Sharing in your Network Settings.
- Never leave devices unattended and be aware of people looking over you to see your devices.
- Update mobile or tablet software to increase security and have anti-virus software on your computer or laptops.
- Avoid downloading free ringtones or free offers.
- Never view finances or other personal information over public Wi-Fi.

Signature

By signing this form, I _____ (print name), understand the rules for participating in the mentoring program for Find Your Legacy, Inc. If I violate these rules I will be dismissed from the program.
